ning of each regular issue of the PCT Gazette.*

(54) Title: APPARATUS FOR DISCRETE DISTRIBUTION OF GRANULES

(57) Abstract: An apparatus for discrete distribu-  
tion of granules, such as seed, fertiliser or the like  
comprises a path forming device having an inlet (6)  
adapted to be associated with a granules container of  
an agricultural machine, and an outlet (7) adapted to  
be associated with a coulter of the agricultural ma-  
chine. In accordance with the invention, said path  
(25) is defined by at least one wall extending on ei-  
ther sides of and along at least a part of the extension  
of said path, wherein said path is formed about a sub-  
stantially vertical axis. The invention also relates to  
an agricultural machine (10) provided with such an  
apparatus.
